

A**B**

Figure S3. *mir-45* is not detected in the male gonad arm. *gfp* expression in young adult male *mir-45(xw8)* worms that have *gfp* inserted into the *mir-45* endogenous locus. (A) No transgene control. (B) *mir-45(xw8)*. (A-B) Dissected adult male germlines. Left to Right: DIC, DAPI and antibody-GFP. Arrow: distal end of gonad arm (n = 10 gonads per strain)
