
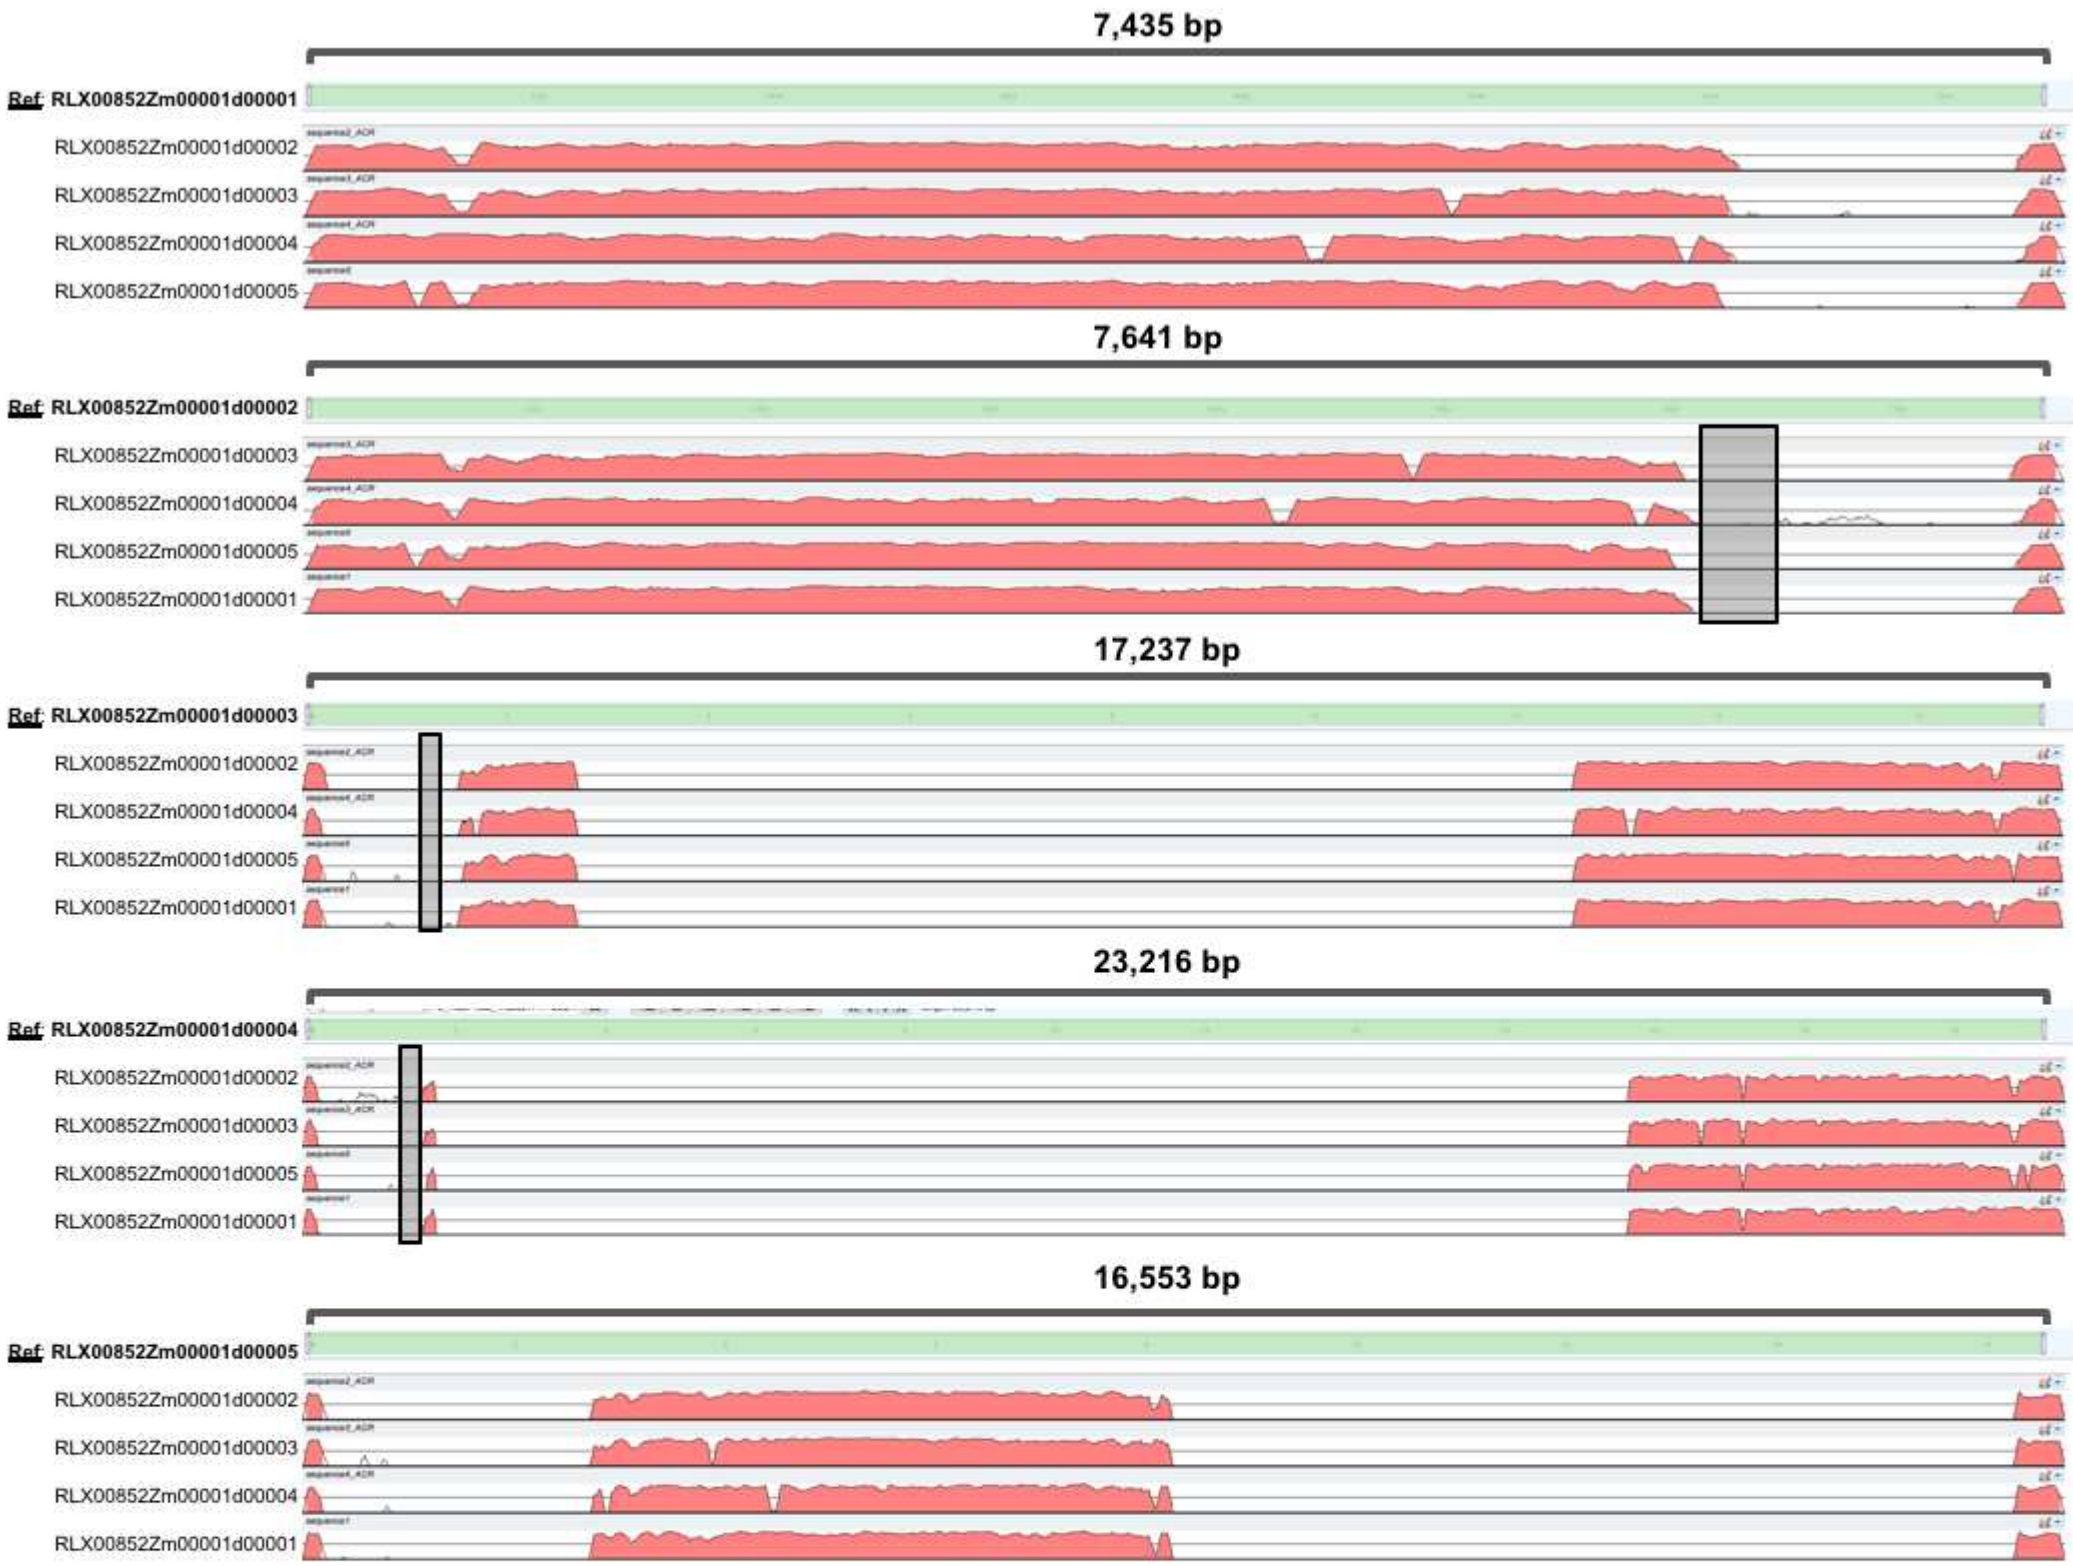

Figure S8: Sequence similarity across members of the RLX00852 TE family. VISTA display of sequence similarity for TE family with 3 members containing an ACR (RLX00852Zm00001d00002, RLX00852Zm00001d00003, RLX00852Zm00001d00004) and 2 members lacking an ACR (RLX00852Zm00001d00001 and RLX00852Zm00001d00005). Shown relative to sequence of top TE listed. Grey boxes represent location of ACR in reference sequence.
